As an early adopter of pod drive systems, Sabre Yachts has a clear understanding of how these revolutionary drives can best be used to increase efficiency, maximize ease of operation and increase owner confidence. The Sabre 48 Salon Express is our fifth pod driven model and takes full advantage of this technology in both her performance and in her interior accommodation plan.

The 48's traditional exterior profile belies the contemporary performances of her vee-hull. She cruises at 27 knots and, at wide open throttle she'll attain more than 32 knots. With the Zeus pod drive system, turns at speed are as exciting as they are in a fine sports car, but perhaps even more exhilarating are the low sound levels at cruise speed: with less than 75 Dba, the Sabre 48 is one of the quietest motoryachts available today. The joystick and Skyhook operations give every Captain the confidence to dock her in the most difficult of circumstances.

Her raised cockpit sole brings together the social aspects of the cockpit and main salon, and the aft end of the house opens up fully to connect the spaces. Her main salon offers ample seating surfaces for entertaining or simply relaxing to read or enjoy the standard entertainment systems. While underway the raised settee to port of the Stidd helm chair is a perfect place for the crew to enjoy the ride. And when docking, a standard side deck door assists her helmsman and crew. The two cabin, two head layout is supplemented by a mechanical space forward of the engine room. As an option, this space can be laid out as a crew quarters with berth and head unit.

And the 48' Sabre Salon Express 2013 "Carmen II" is no exception. Highlighting "Carmen II's" distinctions include the reliable Cummins QSC 8.3 550hp mains at 3,000 RPM with 158 hours, Zeus 3800 Pod Propulsion System with Joystick and Skyhook, Delco Remy 120 amp 12v alternators, Cummins/Onan 13.5MDKBN 13.5kW genset with soundshield and 69 hours, Xantrex Freedom SW 3012 3,000 watt sinewave inverter/charger, AGM Lifeline batteries, Webasto DBW 2010 45,000 BTU hydronic diesel heat system with Aube theromstats, Marine Air Systems 54,000 BTU chilled air climate system with 4 zones and thermostats, FCI AquaMiser+ A816C 800 gpd watermaker, (2)Furuno NavNet TZtouch 14.1" Ultra Bright Sunlight Viewable Color High Performance Multifunction Displays with chart plotter, AIS, radar and color video fishfinder, Furuno DRS6A 6kW 64nm radius with 48" open array radar, Zeus Precision Pilot(autopilot & Skyhook), 2 Furuno RD-33 4.3" ultra bright sunlight viewable color LCD multifunction displays, Standard Horizon Quantum GX 550S VHF with 30 watt PA/loudhailer, Standard Horizon Submersible RAM3 remote station microphone , KVH M5 TracVision satellite TV antenna, Bose Lifestyle 135 Home Entertainment System, Sony & LG LCD TV's, Webasto sunroof with shade screen, Splendide Ariston separate washer/dryer, Beam central vac system, Cockpit & swim platform teak decks, Dylan Quick windlass, 44lb Delta polished stainless anchor, Cablemaster CM-7 with 50' 50amp/125/250v shorepower cable, Kahlenberg single horn with air compressor and a Freedom Lift 800lb capacity with wireless remote controls.
